

Gender Reassignment Surgery (GRS) Checklist for Students Precertification Process Information and Requirements

This checklist should be used to help you prepare for Gender Reassignment Surgery with your selected provider. Your provider will need to contact Aetna Student Health directly to begin the precertification process. If you should have any additional questions or require further assistance, please contact Aetna Student Health Customer Service at the Toll Free Number which is listed on your Aetna ID Card.

Pre-Certification does not guarantee the payment of benefits. Each claim is subject to medical policy review, in accordance with the exclusions and limitations contained in the Policy, as well as a review of eligibility, adherence to notification guidelines, and benefit coverage under the specific Student Health Insurance Plan (SHIP). Please review Aetna’s Clinical Policy Bulletin #615 located online which details all clinical criteria and requirements needed in preparation for your Gender Reassignment Surgery:
